

From the KCC Booster Club formation committee:

Dear KCC Family,

Thank you so much for giving us the opportunity to serve you. As we've traveled this road to the creation of the KCC Booster Club, we have laughed, debated, and more importantly, realized that each person, each student, and each parent has much to offer. There is beauty and value to each gift and each hour given.

*Our school of about **275 families** with arms linked and standing side by side has the potential to accomplish awesome things in the 2016-2017 school year. If each of us invests a little, the combined impact will be much larger than the sum of the parts.*

*When you think of a booster club, we want to challenge you to think bigger and broader. It's not just about high school sports. The vision for the KCC Booster Club is that it will provide a mechanism for **developing community** and pursuing new ideas; it will meet some financial needs that are in addition to the budgets for sports, theatre, music and activities; it will equally represent genders and ages across all sports and clubs; and it will provide additional structure and enhance our athletics and clubs.*
